I. Message from Mr. Minister Lu

96年7月2日行政院勞工委員會在各界的期盼下，揭牌成立勞工退休基金監理會，對於這個在行政與立法部門不斷折衝以及勞工朋友殷切期盼下所設立的新機關，我們最大的期待就是希望勞工退休基金經營績效得以提升，勞工老年生活安全能受到保障。

政府為解決長期以來勞工因受限於工作轉換無法累計退休年資，致難以符合請領退休金條件的困境，於93年6月完成勞工退休金條例的立法，並於94年7月正式施行勞退新制，建立「可攜式」的企業退休金制度。

世界銀行曾經提出老年退休金三大支柱的架構，第一個支柱是以政府主導的社會安全制度為主，第二個支柱是雇主提撥的職業退休金，第三個支柱則是個人儲蓄，透過這三個支柱，讓國民的老年生活得以獲得充分保障。而勞退新制的實施，正是改進第二個支柱的重要步驟。不過，要真正達到保障勞工老年退休生活的目標，還必須能夠妥善運用勞工退休基金，因此，專業而有效率的基金監督管理單位就顯得更為重要。

成立勞工退休基金監理會，依法同時統籌管理勞動基準法所規範的勞退舊制基金以及勞工退休金條例所規範的勞退新制基金，其目的就是要以一個獨立、專業、安全的組織，來提升基金運用的成效，為勞工謀取最大利益。對於勞工退休基金監理會能夠在監理會組織法完成立法三個月迅即成立，並順利運作，本人甚感欣慰。

政府的使命在照顧廣大人民的福祉，面對人口日趨老化情勢，如何保障勞工老年退休生活，為政府施政規劃之重點。勞退新制的實施，將為台灣注入一股安定的力量，而透過勞工退休基金監理會的努力，期望不久的將來，全國勞工可以共享改革的甜蜜果實。

On July 2nd 2007, the Council of Labor Affairs of the Executive Yuan, under the expectations of all citizens, established the Labor Pension Fund Supervisory Committee. After many arguments and compromises between executive and legislative sectors, our greatest expectation for this new-born institution, established with all labor friends' best wishes, is to enhance the management performance of Labor Pension Fund and thus protect labor's retirement life.

The government tried to resolve a long-run issue that the laborers who transfer jobs between companies are not qualified for the pension application because their working years in the previous employers cannot be counted into the retirement seniority. Therefore, the Labor Pension Act was legislated in June 2004, and in July 2005, the New Labor Pension Scheme, a "portable" corporate pension system, was formally implemented.

The World Bank has ever proposed a Three Pillar Pension Model. The first pillar is public component, mainly the social security system. The second pillar is private employer-contribution pension system. The third pillar is personal savings. Through these three pillars, the citizens' old-age life can be fully protected. And the New Pension Scheme is exactly an important reform for the second pillar. However, to truly achieve the goal, the Labor Pension Fund must be well managed. Thus, a professional and efficient fund supervisory institution plays a very important role.

The Labor Pension Fund Supervisory Committee by law supervises both the Old Labor Retirement Fund regulated by Labor Standards Act and the New Pension Fund regulated by Labor Pension Act. The objective of the Supervisory Committee, as an independent, professional, and safe organization, is to enhance the fund performance and maximize the benefits of all labor. I deeply appreciate that the Labor Pension Fund Supervisory Committee could be established within three months right after the Organizational Act of Labor Pension Fund Supervisory Committee completed legislative process.

The government possesses a mission to look after the welfare of the citizens. Facing the trend of population aging, the government should emphasize its policies on how to protect labor's retirement life. The implementation of the New Pension Scheme will prove to be a stable force in Taiwan. And through the efforts of the Labor Pension Fund Supervisory Committee, we expect that the labor nation-wide can share the sweet fruits of this pension reform in the near future.

II. Message from Mr. Chairperson Huang

在社會各界的企盼下，勞工退休基金監理會於96年7月2日正式成立，開啟我國勞工退休基金史上嶄新的一頁。監理會的成立，不僅彰顯政府對勞工退休基金專業化、透明化運作的決心，亦肩負六百多萬勞工朋友的殷切期待，我們深感責任重大。

成立這樣一個掌管龐大勞工退休基金的單位，我深切認知當前最重要的工作，是要優先把監理會的組織運作以及基金管理運用的各項機能建置好。唯有奠下完善的運作基礎，才能使勞工退休基金在安全穩定之機制下永續發展。我們立下目標，要從組織建構、制定法令規章、建立專業團隊、資訊系統建置、及風險控管等幾個面向著手努力，並秉持獨立、安全、效率、透明原則，來追求勞工退休基金長期穩定之收益。

這半年多來，從人員的進用補實、辦公廳舍的設計裝修，到法令規章的積極研訂、資訊系統的籌劃建置、基金業務的運籌推動，無一不是本著與時間競賽的態度積極進行。我們迅速完成60位同仁的公開甄選進用，及19項新舊制基金法規的訂定，配合密集的專業訓練與資訊蒐集，強化各項基金運用計畫之推展；並完成17項資訊系統的建置，定期對外發布監理會運作及勞退基金運用收益相關訊息，也劍及履及地展開風險控管相關機制，讓基金能在確保安全下運作發展。

截至96年底止，勞工退休基金規模已從監理會成立前的5,793.35億元(含新制基金1,583.25億元、舊制基金4,210.10億元)，增加至6,936.69億元(含新制基金2,346.81億元、舊制基金4,589.88億元)。在資產配置方面，舊制勞退基金已運用二十餘年，資產結構較為穩健；而新制勞退基金在監理會成立前委由勞保局代管，係以定期存款為主，監理會成立後，為提高基金運用效益，即積極依所訂法令規範，採取多元化投資策略，並以委託經營方式將資金布建於國內資本市場。未來新舊制勞退基金均將考量分散風險，採國內外股債平衡原則進行資產配置，以追求基金最大經營績效。

這次監理會首度編纂96年度年報，是秉持資訊公開透明原則，希望讓社會各界尤其是勞工朋友都能了解新舊制勞退基金運作狀況。回顧這半年多來，在行政院勞工委員會盧主任委員等各級長官及監理會諸位委員的指導協助下，同仁均兢兢業業以一股要為勞工朋友謀福祉的決心在努力。雖然受到全球金融市場波動衝擊，短期內基金投資績效尚未彰顯，不過相信在現有打造好的機制上持續推動各項計畫，應該可以很快交出漂亮的成績單。

Under the expectations of the society, the Labor Pension Fund Supervisory Committee officially established on July 2nd 2007. It opens a new era for the Taiwanese Labor Pension Fund. The establishment of the Supervisory Committee not only shows the government's determination to enhance the professionalization and transparency of the Labor Pension Fund, but also shoulders the best regards of 6 million labor friends. We strongly feel the great responsibility.

To operate an organization which manages such a huge Labor Pension Fund, I deeply recognize that it is imperative to establish various mechanisms for the organizational operation and for the management of the Fund. Only through a well-defined operational basis can the Labor Pension Fund develop permanently under a secured and stable system. We have defined goals to make efforts in the aspects of organization establishment, regulations constitution, professional team buildup, information system construction, and risk management. Meanwhile, we will pursue the long-term stable income yields for the Labor Pension Fund with the principles of independency, safety, efficiency, and transparency.

For the past 6 months, from the personnel recruitments, design and maintenance of the office and facilities, constitution of the regulations, planning and construction of information system, to the fund management and operation, all are performed progressively in a time race attitude. We rapidly completed the public recruitments of sixty personnels, and formulated 19 regulations for the Old Labor Retirement Fund and the New Labor Pension Fund, coordinating with intensive professional training and information collection, and fostering the implementaion of various fund utilization plans. The Committee also completed the installation of 17 kinds of information systems, and periodically publishes the information on the Committee operation and on the Fund management performance. Simultaneously, the Committee started the risk management mechanism to ensure the Fund's operating safely.

At the end of 2007, the size of the Labor Pension Fund increased from NT \$579.335 billion including 158.325 billion of the New Fund and 421.01 billion of the Old Fund up to NT\$693.669 billion including 234.681 billion of the New Fund and 458.988 billion of the Old Fund. As for the asset allocation, the Old Fund has been managed for more than two decades; therefore, its asset structure is more stable. The New Fund, temporarily operated by the Bureau of Labor Insurance before the establishment of this Committee, was mainly allocated to the time deposits. Now after its establishment, the Committee, in order to increase the investment returns for the Fund, actively diversified the investment strategies based on the formulated regulations, and outsourced the domestic investment management to professional managers. In the future both the Old Fund and the New Fund will diversify the risks, balance the fund asset allocation between domestic and foreign market and between equity and fixed income to maximize the fund's investment performance.

This is the first time for the Supervisory Committee to compile the 2007 annual report. Based on the principle of information transparency, we hope this report can let the society, especially the labor friends, understand the operational conditions of the Old and New Fund. Looking back on the past half a year, under the guidance and assistance of Mr. Minister Lu of the Council of Labor Affairs and the committee members of the Supervisory Committee, all my colleagues here have been diligently engaged in pursuing the labor's welfare. Impacted by global financial market volatility, the Fund in the short run has not shown its positive performance. However, we believe that the Fund will deliver a beautiful performance record with all of the various plans under such a well-established mechanism.

舊制勞工退休基金自96年起，進行國外投資之委託經營，並選任JPMorgan Chase Bank擔任國外保管銀行，為瞭解該行保管業務運作及風險管理實務，確保本基金國外投資資產安全性，爰會同台灣銀行前往JPMorgan Chase Bank 訪察保管業務之基本服務項目、增值服務項目、風險管理組織架構及風險管理實務外，並藉由研習移轉管理、債券服務及新商品審批流程等相關議題，汲取世界級銀行保管及風險管理精髓，作為日後本會建置完善保管及風險控管制度之參考。

(2) Implementing auditing operations

The Committee designed “2007 On-site Auditing for the Old Labor Retirement Fund Domestic Delegated Investment”, and from November 7th to 23th 2007, visited and audited 9 delegated institutions with totally 17 accounts. Twenty five items of improvement suggestions were sent to the delegated institutions. The Committee keeps tracing the improvement situation to protect the safety of the Fund and to secure the benefits of labor.

(3) Visiting foreign custodian bank

Since 2007, the Old Fund started the foreign delegated investment, choosing JP Morgan Chase Bank as foreign custodian bank. To know the custodian operations and risk management practices and to secure the safety of the foreign assets of the Fund, the Committee travelled together with Bank of Taiwan to JP Morgan Chase Bank to review basic service items, value-added items, risk management organization structure and risk management practices of custodial business. And through the study on the related issues of transition management, security lending and new product review process, the Committee learned the custodial and risk management procedures of world-class bank, and took them as a reference for the Committee to construct complete custodial and risk control system.

十、訂定廉政規範

本會成立之初，即著手擬訂「本會員工利益迴避及保密義務注意事項」暨「本會勞退基金管理運用查核機制應行措施」等二項廉政規範，其目的在於建立本會員工具有高標準的廉政觀念與形象。

「本會員工利益迴避及保密義務注意事項」要求本會全體員工除須嚴守保密責任及履行利益迴避原則外，並要求直接參與基金投資運用之同仁必須簽署「員工自律公約」，不得買賣股票。另「本會勞退基金管理運用查核機制應行措施」則強化基金運用安全，防止人為不當操作。

(X) Designing Guidelines of Civil Service Ethics

At the beginning, the Committee started to constitute the “Remarks on Avoiding Conflict of Interests and Obligations to Keep Business Secret of Personnel of the Committee” and “Measures on the Utilization Check Mechanism of Labor Pension Fund of the Committee.” The purpose is to develop colleagues’ high-standard ethics concepts and image.

“Remarks on Avoiding Conflict of Interests and Obligations to Keep Business Secret of Personnel of the Committee” demands that all the personnel to keep the responsibility of confidentiality and to avoid conflict of interests. Besides, it asks the personnel who are directly involved in the fund investments not to invest in equity by signing the “personnel self-discipline code.” Also “Measures on the Utilization Check Mechanism of Labor Pension Fund of the Committee” strengthens the security of fund utilization, preventing human misconduct.

捌. 本會未來發展重點

VIII. Future Development Focuses of the Committee

一、廣續強化基金管理能力，建立專業團隊

勞工退休基金規模日益增長，如何強化基金管理能力，因應瞬息萬變之金融情勢，乃當前重要課題。未來本會將持續強化組織機制，辦理各項專業訓練，並廣泛蒐集研析全球市場資訊，增進工作團隊專業能力，提升基金運用績效。

二、建立多元資產配置，提升運用效益

退休基金係屬長期資金，其資產配置狀況攸關基金長期獲利基礎。展望未來，面對全球投資市場的不確定性，新舊制勞退基金皆須透過資產配置，有效因應金融市場變化，同時透過各種專業機構貼近市場的經營策略，分散投資風險，並提升基金穩健投資效益。

三、廣續強化稽核控管機制，保障基金安全

本會對於基金各項投資均訂有標準作業流程及安全控管規範，未來將持續檢視執行狀況，並推動內外部稽核計畫，確保本會內部單位及國內外委託經營之受託機構與保管機構均遵循法令規範，以建構整體基金投資運用之風險控管機制，保障基金安全。

四、加強與國內外退休基金管理組織交流，掌握基金管理趨勢

未來本會將與國際勞工退休基金管理組織或相關機構建立資訊交換機制，不定期提供我國相關法規予各國參考，使國際社會瞭解我國勞動情勢，增加我國國際能見度。

另將積極加強與國內外退休基金管理組織合作交流、參加國際退休基金管理相關會議，並邀請國外退休基金監理組織來台訪問或演講，藉以深入瞭解各國退休金管理趨勢，期使我國勞工退休基金監理制度更臻完備。

(I) Continue Strengthening the Fund Management Capability and Building up a Professional Team

As the Labor Pension Fund grows rapidly, how to strengthen the fund management capability to cope with the rapidly changing financial markets is an important issue for the Committee. In the future the Committee will keep strengthening organization mechanism, conducting various professional trainings, broadly collecting and analyzing global market information, and improving the professional capability of the investment team in order to enhance the investment performance of the Fund.

(II) Diversifying Asset Allocation and Increasing Utilization Benefits

Labor Pension Fund is in fact a long term capital. The asset allocation strategy is the key for the long-term investment returns of the Fund. Looking forward, facing the uncertainty of global capital markets, the Labor Pension Fund must effectively cope with the change of financial markets with a well-planned asset allocation strategy. Meanwhile with various close-to-market investment strategies of professional institutions, the Fund will diversify investment risks and generate stable investment yields.

(III) Continue Strengthening Audit Control System to Secure the Safety of the Fund

The Committee established standard operational procedures and security control guidelines for every investment of the Fund. In the future it will keep reviewing the implementation situations and running internal and external auditing plans to ensure internal departments of the Committee and the domestic and foreign delegated investment institutions and custodian to comply with the regulations. Thus the risk control mechanism of the overall fund investment management can be built up to protect the safety of the Fund.

(IV) Strengthening the Exchange Between Domestic and Foreign Pension Fund Management Organizations to Keep up with the Trend of Fund Management

In the future, the Committee will establish an information exchange mechanism with the international labor pension management organizations and related institutions. Also we will provide the related regulations in Taiwan for other countries' references, and thus foster the international society's understanding on Taiwanese labor conditions to increase the visibility of our country.

Besides, the Committee will actively strengthen the exchange and cooperation with domestic and foreign pension fund management organizations, participate in international pension fund management conferences, and invite foreign pension fund supervisory institutions to visit Taiwan and deliver speech in order to deeply understand the pension fund management trend of other countries and to perfect our labor pension fund supervisory system.
